# Cherry Hill Aurseries

ESTABLISHED 1832 INCORPORATED 1909

WEST NEWBURY, MASS.

5 1-2 miles from Newburyport 2 1-2 miles from Byfield Depot

1 1-2 miles from West Newbury Electric Road

About half way between Newburyport and Haverhill

### T. C. THURLOW'S SONS, Inc.

Long Distance Telephone, Newburyport 682=1

#### HE CHERRY HILL NURSERIES

are located in the fertile valley of the Merrimac River and our land, a light loam underlaid with clay, produces a great many fibrous roots, so that evergreens, etc., may be lifted with a ball of earth adherent, thus insuring the roots from exposure.

SPECIALTIES.—We have made specialties of Evergreens and have a great many large specimens. Among others we have fine stocks of Concolor Fir, Fraser Fir, Siberian Arborvitæ, Douglas Spruce, Colorado Blue Spruce, Hemlocks, Kalmia (Mt. Laurel), Andromeda floribunda. Also Sugar and Norway Maples, native Azaleas, etc.

PEONIES.—We have our Peonies, Iris and Phlox listed in a separate catalogue which we will be glad to send to any one desiring it.

WARRANTY.—In growing and furnishing nursery stock we exercise the greatest care to have it true to name and will replace any that may prove untrue. However, we give no warranty, expressed or implied and in case of error on our part it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original purchase price. We do not warrant trees to live, as we have no control over the weather or the circumstances attending planting; but we have abundant proof that our trees, when planted carefully at the proper time, have given excellent satisfaction. We dig and pack very carefully with as little exposure as possible to the sun and wind.

We can deliver with horse teams, within twenty-five or thirty miles, any heavy or valuable stock much cheaper than it can be sent by rail, charging only for time of men and horses on the road. Large buyers or dealers can buy stock by the row or block at less than these prices, while trees personally selected in the nursery will be charged for according to size and beauty, and not at wholesale rates.

PACKING.—The prices annexed do not include boxes or bales and these will be charged for extra, but only enough to cover cost of time and material. We make no charge for delivery to the express or railroad station.

TERMS.—These prices are for net cash unless by special agreement.

The Commonwealth of Massachusetts

#### STATE BOARD OF AGRICULTURE

OFFICIAL CERTIFICATE No. 30

Boston, September 19, 1911.

To whom it may concern:

This is to Certify, that I have this 15th day of September completed the inspection of the nursery stock of T. C. Thurlow's Sons, Inc., grown at West Newbury, State of Massachusetts, and find it to be apparently free from all injurious insects and diseases which might be transferred on nursery stock from the nursery to the orchard or garden.

This certificate is good until July 1, 1912.

Inspected by J. H. Merrill.

(Signed) H. T. FERNALD, Inspector.

A SPECIMEN ABIES CONCOLOR GROWING IN OUR GROUNDS

#### HERBACEOUS PERENNIALS

We have for many years specialized on **Peonies, Iris,** and **Phlox** as the three leading perennials for a continuation of bloom throughout the season, and have a collection of the best varieties from all over the world. We carry a general line of herbaceous plants, however, and have listed below some we consider to be the best. All are strong, field grown plants.

plants.						Per 10	Per 100
